

# Sanar International Hospitals

Sanar International Hospitals is a 150-bedded multi-speciality hospital based in the National Capital Region of Delhi in India. Founded in the year 2018, the Hospital offers comprehensive, advanced surgical care in specialties such as Cancer, Heart, Blood and Marrow Transplant, Kidney & Liver Transplant, Bone & Joint and Neurosciences.

A commitment to providing the best healthcare services and patient experiences is at the core of the hospital's mission. With a team of experienced medical experts, state-of-the-art facilities and world-class infrastructure, the hospital has made a mark for itself not only amongst the domestic patients, but also the international patients coming to India for best medical care.

The Hospital follows stringent international practices and believes patient centricity is the cornerstone for providing high-quality care. Relying on years of experience that each surgeon brings to the table and backed by cutting-edge technologies that are at par with the best in the world, Sanar Hospitals is today, reckoned amongst the most well-regarded healthcare providers of the country.
